

THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS  
OFFICE OF THE FIRST PRESIDENCY  
47 EAST SOUTH TEMPLE STREET, SALT LAKE CITY, UTAH 84150-1200

August 23, 2011

To: General Authorities and the following leaders in Europe and South Africa: Area Seventies; Stake, Mission, and District Presidents; Bishops and Branch Presidents

Dear Brethren:

2012 Satellite Program Schedule

A schedule of Church satellite broadcasts for 2012 is enclosed, with general instructions. Specific instructions, including schedules of broadcast languages and times, will be sent approximately six weeks before each broadcast.

We encourage your careful attention to this schedule. These broadcasts are an important part of the Church's efforts to instruct and edify members worldwide.

Sincerely yours,

  
\_\_\_\_\_  
Thomas S. Monson

  
\_\_\_\_\_  
Henry B. Eyring

  
\_\_\_\_\_  
Dieter F. Uchtdorf

The First Presidency

This letter is being translated and will be distributed to units identified as Albanian, Armenian, Bulgarian, Croatian, Czech, Danish, Dutch, Estonian, Finnish, French, German, Greek, Hungarian, Italian, Latvian, Lithuanian, Malagasy, Norwegian, Polish, Portuguese, Romanian, Russian, Spanish, Swedish, and Ukrainian. Distribution in these languages will be complete within two weeks. ## General Satellite Program Instructions for the Stake Technology Specialist

### Outside the United States and Canada

**Please write the following information in the space provided, and have it ready when you call the help desk for technical assistance:**

Building property number (available from the facilities manager): \_\_\_\_\_

Satellite receiver numbers (read them from the front panel of each satellite receiver)

Receiver serial number	Language(s)
Receiver serial number	Language(s)

#### Before Each Satellite Program

The Church satellite system is continuously available for testing. Please check the satellite equipment installed at your meetinghouse at least one week before each scheduled broadcast to allow time for any repairs that might be necessary.

An audio and video system test is available for approximately one hour before each broadcast. The audio portion of the test consists of verbal identification, in English, of the specific language channel.

Check the following:

1. Turn on the monitor. Verify that you are receiving a prefeed program. Set the chapel sound system to a comfortable listening level, and check for needed adjustments to the video projector.
2. Set up television sets at building locations as needed. Verify that video and audio are working. Closed-captioning for the hearing impaired is usually viewed on a television set.
3. Verify that the correct languages are being received.
4. Adjust lighting in viewing areas to allow for good picture quality and note taking.

#### Technical Information

If you have questions regarding the satellite equipment installed at your meetinghouse or if you experience technical difficulties during the audio and video system test or the broadcast, please call the help desk at the assigned administrative office for assistance:

**Administrative office phone number** (available from the stake clerk): \_\_\_\_\_

Personnel will be at the help desk for one hour before and during a scheduled broadcast. In some administrative offices, support is also available during normal business hours.

When calling for technical assistance, place the call from a telephone located at the satellite receiver, and have a television monitor connected to the satellite receiver.

See [mhtech.lds.org](http://mhtech.lds.org) for troubleshooting hints (English only).

**Satellite Program Information**

You may call the assigned administrative office, at the phone number given under “Technical Information” above, for general information on upcoming satellite broadcasts or if you have questions regarding the satellite program schedules and related information published by the Church.

See [broadcastinfo.lds.org](http://broadcastinfo.lds.org) for letters and schedules in English.

**After Each Satellite Program**

Do the following:

1. Turn off and store the video equipment.
2. Turn off the sound system.
3. Leave the satellite receiver turned on if the meetinghouse power is stable.
